Manuel Sánchez-Montañés
Profesor Contratado Doctor

Computer Science Department
Escuela Politécnica Superior

Manuel Sánchez-Montañés, *Profesor Contratado Doctor* at the Universidad Autónoma de Madrid, has a degree in Physics from Universidad Complutense de Madrid winning the Extraordinary Prize (1997) and a Ph.D. in Computer Science from Universidad Autónoma de Madrid, which was awarded with the Extraordinary Prize (2003) . Expert in Artificial Intelligence, Machine Learning and Deep Learning with twenty years of experience in the field, he has been working since 1999 at the Universidad Autónoma de Madrid at the Department of Computer Science, where he teaches different undergraduate and master subjects related to Science Data, Machine Learning and Artificial Intelligence.

He is the author of more than twenty international scientific publications (articles in indexed journals / book chapters). He has participated in 12 research projects funded by public organizations and 18 university-business knowledge transfer projects (7 directed by him), all of them closely related to AI and Advanced Data Analytics. He is also the author of an international patent on artificial vision.

He also has a broad experience in the practical applications of AI and Deep Learning in a wide variety of problems such as time series prediction, natural language processing and medical decision support systems.
